MANNFORD, OK 74044

**Re: PWSID No. OK1020909
Consumer Confidence Report (CCR) Due October 1, 2020**

CCR season has returned. Once again, the Department of Environmental Quality (DEQ) has created your water system's CCR and posted it on a DEQ-supported website. This CCR includes any outstanding tier 3 monitoring public notice. Please take time to review the CCR at the indicated website link below. The website link is the same as the previous year and must be delivered to your customers again this year.

In order to meet all of the CCR requirements your water system must:

1. Distribute the exact website link provided below to all of your customers. Put the link on an upcoming bill, mailer, or handout. It must be sent to each individual customer.

Website Link: <http://sdwis.deq.state.ok.us/DWW/CCReports/OK1020909.pdf>

2. By October 1, 2020, send DEQ the attached CCR certification form and a copy of the website link that was sent to customers.

If you have questions, please contact Steven Thibodeau at 405-702-8165 or at Steven.Thibodeau@deq.ok.gov.

Sincerely,

A handwritten signature in black ink that reads 'Steven Thibodeau'.

Steven Thibodeau, District Coordinator
Water Quality Division
